

KIT-RR

RR System to convert standard chuck in quick-change chuck Ø 210-400

Application

- Converts a standard chuck into a quick jaw change chuck
- Easy coupling and uncoupling with spring loaded button
- Safety against accidental release
- Suitable for manual and/or robotic use
- Ready for robotized change

Technical features

- Available sizes Ø 210-400
- Semifinished pallet and top jaws kit
- Available for master jaws with 1/16 x 90° and 1,5 mm x 60° serrations

Operation steps

KIT-RR

KIT-RR for SMW-Autoblok chuck

RR ADAPTERS **A** (Id.n.refers to 1 adapter+1 T-nut)

ID.N.	d	A + B	
		H	Weight Kg
18932110 / 18932113	22	55	0,73
18932510 / 18932513	27	62	1,65
18932610 / 18932613	30	71	2,8
18933110 / 18933113	30	74	4,3

attention!
when the RR-KIT is mounted
on the chuck must reduce the
chuck working parameters
of 20%. pls, read the chuck
manual instructions to know
the max rpm.

RR SOFT TOP JAW **B** (Id.N.refers to 1 jaw)

ID.N.	B	h	L	T	Weight Kg
18042110	40	48	70	-	0,8
